

## LIGHTFOOT WATER LINE EXTENSION PHASE II

**Great news** for our residents in northern areas of York County...Newport News Waterworks has begun the Lightfoot Water Line Extension Phase II with land clearing operations underway. The project extends the Newport News Waterworks distribution system making sure there's quality drinking water for those in the Lightfoot corridor. If you live or travel in that area and see these operations, just know that improved water service is coming to our neighbors in that portion of the County!

For more information, contact York County Public Works at 757-890-3750.
