Citation Information:

Originator: York County GIS

Publication Date: Unknown

Title: Lakes

Geospatial Data Presentation Form: vector digital data

Online Linkage:

Description:

Abstract:

The lakes feature class is a hydrographical layer that includes all natural and manmade water bodies in the County. The layer consists of any water body that could be digitized as a polygon, including lakes, ponds, and rivers. Rivers that are too narrow to create accurate polygons are digitized as arcs in the streams layers.

Purpose:

Provide the outline of all water bodies in York County for mapping and analysis.
