

Historic York County

Preserving History and Nature

2019 Beautiful
York County

What is the York County Beautification Committee?

The York County Beautification Committee (YCBC) was established by the York County Board of Supervisors on December 16, 1976, to “promote a cleaner, more attractive York County and increase awareness of environmental issues among York County citizens.” Since that time, YCBC members have worked tirelessly to conduct litter prevention, beautification, and environmental awareness programs in order to fulfill that purpose.

In April 2012, through the work of the YCBC, the Board of Supervisors, was presented with a Certificate of Affiliation with the Keep America Beautiful organization. Affiliation with this program not only brings national recognition, but enhances the existing efforts of the YCBC, as well as provide access to educational materials and grant funding. (For additional information on Keep America Beautiful, Inc., and its mission to find solutions for beautifying communities, please visit www.kab.org)

In 2019, the YCBC will attend Yorktown Market Days, participate in other environmentally focused programs, and will be planting its very own Monarch butterfly garden at the Waste Management Center. The focus throughout the year will be conserving and protecting our waterways, incorporating the use of native plants in our gardening, and keeping the environment clean of litter, by recycling often and recycling right!

If you would like to be a part of this dedicated, growing partnership between local government, businesses, and civic groups, or for general information about the YCBC, please visit www.yorkcounty.gov/ycbc or call (757) 890-3780.

January Meetings

- January 2 — Board of Supervisors, YH @ 6pm
- January 8 — Beautification Committee, WM @ 10am
- January 9 — Planning Commission, YH @ 7pm
- January 10 — Wetlands Board, PW @ 6pm
- January 15 — Board of Supervisors, YH @ 6pm
- January 17 — Historical Committee, YH @ 7pm
- January 22 — Economic Development Authority, YH @ 4pm
- January 23 — Chesapeake Bay Board, PW @ 6pm
- January 24 — Board of Zoning/Subdivision Appeals, YH @ 7pm

Recycling Right

In addition to the curbside garbage collection service that York County offers residents, a curbside recycling program also is available. Recycling saves natural resources AND disposal dollars by diverting waste from the garbage stream! Many recyclable materials, such as plastic bottles and aluminum cans, never make it into the recycling bins and end up in the trash or even our waterways. These items, when recycled properly, can reduce the amount of waste in landfills and our precious water. Some materials can even be recycled over and over again, so it is important to recycle all materials that can be recycled right.

Likewise, when the wrong items are placed in the bins, they can contaminate the entire load of materials. Boxes with food residue, cans that still contain liquid, and oil or grease can cause a load of recyclables to be disposed of as waste instead. Plastic bags in the recycling load can cause serious damage to the machinery used to separate materials. "Wishful Recycling" behavior (tossing items into the recycling that are not acceptable items with the hope that they *could* be recycled) should be changed to include only those items that are acceptable through the curbside program.

Please visit www.yorkcounty.gov/wastemanagement to view all acceptable items in our curbside recycling program. Make sure materials to be recycled are clean, dry, and free of food and drink residue.

Help keep York County beautiful by Recycling Right.

Household Chemical Disposal and Electronics Recycling

The Household Chemical Disposal Program operated by the Virginia Peninsula Public Service Authority (VPPSA) provides residents of member communities the opportunity to safely dispose of a variety of household chemicals and computer equipment. York County chemical collection and electronics recycling events are held from 8am – noon on the second Saturday of March, May, July, September, and November. On these dates, residents of any VPPSA member community may bring accepted materials to the Public Works Complex located at 105 Service Drive, just past the Waste Management Center on Goodwin Neck Road. This service is available to residents only – no businesses, please.

Acceptable household chemical materials include:

- Lawn and garden products
- Household maintenance products
- Household batteries
- Automotive chemicals
- Household cleaners
- CFL light bulbs
- Fluorescent light tubes.

Items that are not accepted include:

- Televisions
- Business or medical waste
- Compressed gas cylinders
- Explosives, ammunition or gun powder
- Shock sensitive materials
- Radioactive materials
- Household trash.

Acceptable electronic items include computers, monitors, small copiers, printers, and other computer-related electronic devices.

For additional information, or to see a complete schedule of all member community events, please visit the VPPSA website at www.vppsa.org.

Yorktown Market Days

Yorktown “Market Days” is in its 13th season at Riverwalk Landing in historic Yorktown! Located on the Yorktown waterfront between Buckner and Ballard Streets, the market operates weekly from 8am – noon on most Saturdays from April through October (excluding May 4 and October 5), with extended markets and hours on select Saturdays – April 27, May 11, October 12, October 19, October 26, November 16, and December 14 . The market hosts many local farmers, vendors, and artists throughout the season with a variety of homegrown favorites and art.

Yorktown Market Days has been voted the “Best Farmers Market” in Hampton Roads, and is touted as one of the most unique in the area—offering spectacular views of the York River, live music every week, food trucks, chef cooking demonstrations, and a variety of vendors and artists! Visitors to the market will find a variety of fresh produce; meats and seafood; baked goods; gourmet herbs; cut flowers and potted plants; cheeses; handmade soaps and candles; live entertainment; and quality art. There is something for everyone!

Market Days also includes environmental awareness, and green efforts include reusable/cloth shopping bags (YCBC will trade you a reusable bag for your plastic bags when we attend the markets), local farm-to-table program featured, and a strong discouragement of the use of Styrofoam.

Free parking is available in several public parking areas within walking distance or an easy trolley ride. The Market participates in SNAP, and EBT cards are accepted by approved vendors.

For more information, visit www.yorktownmarketdays.com.

Team Up to Clean Up, Adopt-A-Spot

York County is a beautiful place to live, work, and play! One way to keep it that way is for everyone to work together to prevent litter from being disposed of on the ground, in our waterways, and on our roadways. Cigarette butts, plastic drink bottles, and fast food containers are all items that have been found during local cleanup events. Each York County resident can do their part to clean up the community, but wouldn't it also be fun to clean up with a group? The YCBC encourages the **"Team Up to Clean Up"** approach to litter control and prevention, and participates in events such as the Great American Cleanup, Clean the Bay Day, and the International Coastal Cleanup. The County will provide cleanup materials (bags, safety vests, etc.), and will waive any fees that may be incurred for the disposal of garbage and recyclables at the York County Waste Management Center (provided information has been given at least one week prior to the cleanup.)

The **Adopt-A-Spot** program is another way individuals and groups can play an active and ongoing role in beautifying, cleaning, and maintaining York County's public spaces, to include creeks and storm drains. Keeping specific locations free of litter, graffiti, and weeds, are some of the beautification efforts included in Adopt-A-Spot.

For more information on Team Up to Clean Up or the Adopt-A-Spot program, please call (757) 890-3780 or visit www.yorkcounty.gov/ycbc.

Hurricane Season June – November

York County has about 230 miles of tidal shoreline, and can be accessed by several waterways to include the York River, the Poquoson River, and the Chesapeake Bay. It is important that citizens are prepared for the risks associated with major storm events that may affect this area, and are prepared to act on those preparations when officials alert the community.

Before the Storm:

- **Know Your Zone:**
www.knowyourzoneva.org to find out whether you live in an evacuation zone, and what to do if that zone is alerted of a pending weather event.
- **Sign up for York Alert** on the County website: *www.yorkcounty.gov/yorkalert*. York Alert is an Emergency Notification System that allows the County to provide you with alerts before, during and/or following an emergency/disaster by calling your telephone, cell phone and/or sending text messages to you.
- **Be Prepared:** Visit *www.ready.gov* for an emergency supply kit checklist and other safety tips.
- **Know Your Flood Risks:** Discuss insurance needs with your homeowner's insurance company (most homeowner's policies do not cover flood damage or include flood insurance). Visit *www.floodsmart.gov* for more information about flood insurance.

In the event of a flood, follow these basic safety tips:

- Turn Around, Don't Drown!
- Avoid walking or driving through flood waters. Just six inches of moving water can knock you down, and one foot of moving water can sweep your vehicle away.
- Do not drive over bridges that are over fast-moving floodwaters.
- If floodwaters rise around your car but the water is not moving, abandon the car and move to higher ground.

Mosquito Control: Fight the Bite!

Due to its abundance of marshes and waterfront property, York County is a prime breeding environment for woodland and salt marsh mosquitoes. These vectors breed in standing water, and just a small amount of water is all it takes to breed dozens of mosquitoes. The best way to control the mosquito population is to stop it in the beginning of its lifecycle. York County Mosquito Control expends great effort in treating local standing water pools, both natural and manmade.

Mosquitoes not only cause painful and itchy bites, but they are also infectious disease carriers and can become quite dangerous if left unchecked. Humans and animals alike can be affected by mosquitoes that cause suffering from conditions such as West Nile Virus, Eastern Equine Encephalitis (EEE), and heartworms in dogs and cats.

Tip & Toss

- Inspect your yard at least once a week to locate and empty any areas that may contain standing water. This includes children's toys, wading pools, buckets, wheelbarrows, tarps, yard equipment, garbage cans and lids, birdbaths and gutters/downspouts.
- Drain or treat unused swimming pools. Abandoned or unused pools can produce countless mosquitoes.
- Do not litter! Roadside litter is a major contributor to any local mosquito population. When water fills up discarded plastic bottles and caps, plastic lids, and other containers, it creates an optimal, undisturbed breeding location for these pesky insects. Cleaning up litter in your community helps control the population before it gets out of hand.

Turn In Old Tires

Tires provide an environment where mosquitoes love to reproduce! Turn in those old tires at our Waste Management Center, or keep an eye out for Mosquito Control's occasional FREE tire recycling events!

Protect Yourself

If you must go outside around dawn or dusk (the most active times for mosquitoes) always wear an approved insect repellent, and wear long, loose, light-colored clothing to protect your skin.

Please call York County Mosquito Control at (757) 890-3790 to find out how they can help you Fight the Bite!

Only Rain Down the Storm Drain

The York County Stormwater Division is responsible for monitoring and protecting the County's stormwater health and preventing contamination from illicit discharge. Special attention is paid to controlling the amount of contaminants and sediment that flows into our abundant waterways. Stormwater runoff does not flow to a water treatment plant; it flows directly into our waterways. Pollution from untreated stormwater runoff affects drinking water supplies, recreation, fisheries and wildlife. Pet waste, litter, oil, fertilizers, and sediment can all cause contaminated water that is incapable of producing a healthy aquatic ecosystem. Many of the County's activities involve public waterways, such as the York and Poquoson Rivers, and in order for them to remain unpolluted, we all must do our part to control what goes into the storm drains.

- Throw cigarette butts in proper trash cans or disposal containers.
- Use the proper amount of fertilizer for your yard. Stormwater runs over lawns and picks up excess fertilizer, contaminating the water.
- Pick up pet waste and dispose in the garbage.
- Follow proper disposal processes when disposing of sewage boat holding tanks.
- Clean up leaks and spills from automobiles quickly and use drip pans when performing automotive work.
- Bring containers containing household chemicals to a Chemical Collection event to be disposed of properly.
- Storm drains should not be used as a location for any kind of material dumping.

For more information about stormwater, or how we can achieve a "Cleaner, Greener Hampton Roads," visit www.askHRgreen.org.

August Meetings

August 6 — Beautification Committee, PW @ 6pm
 August 6 — Board of Supervisors, YH @ 6pm
 August 8 — Wetlands Board, PW @ 6pm
 August 14 — Planning Commission, YH @ 7pm
 August 15 — Historical Committee, YH @ 7pm
 August 20 — Board of Supervisors, YH @ 6pm
 August 22 — Board of Zoning/Subdivision Appeals, YH @ 7pm
 August 27 — Economic Development Authority, YH @ 4pm
 August 28 — Chesapeake Bay Board, PW @ 6pm

Special Collection and Disposal Options

In addition to our curbside programs, York County offers residents several options for disposing of waste, materials or debris. For detailed information about the following programs, please visit www.yorkcounty.gov/wastemanagement, or call (757) 890-3780 to speak with the Waste Management Division.

- Bulk Collection:** Subscribers to York County's garbage collection service are eligible for up to four bulk collections per year at no additional charge. Bulk collections must be scheduled in advance and must adhere to the guidelines listed on our website.
- Household Chemical and Computer Recycling:** All collections are open to the residents of Williamsburg, James City County, York County, Hampton and Poquoson. Proof of residency may be required. See our website for upcoming collections events and list of acceptable/unacceptable items.
- Yard Debris:** Year Round, York County residents have the opportunity to schedule a special yard debris collection for items such as limbs, branches, and clear bags of natural yard waste. There is a charge for this collection, and debris to be collected must adhere to specific size guidelines. Individuals may also bring materials to the VPPSA Compost Facility located behind the Waste Management Center. There is no charge for subscribers to the County's curbside collection service, however non-subscribers will be charged for drop off.
- Garbage and Recycling Drop Off:** York residents who are subscribers to the County's Basic Service for both solid waste and recycling collections and are current in payment for such services also may drop off their solid waste and/or recycling at the Waste Management Center at 145 Goodwin Neck Road.
- Special Collections:** Occasionally, in emergency-related situations, the County will provide residents with additional collection options. Details can be found on our website or by calling (757) 890-3780.

September Meetings

- September 3 — Beautification Committee, WM @ 10am

The Water Cycle: Keeping it Clean and Avoiding F.O.G. Buildup

Did you know that the average person uses between 80 – 100 gallons of water a day? Showering, drinking, flushing the toilet, and cooking are all some of the ways we use water every single day. So it is very important that we appreciate the value of clean water, and do our part to protect and conserve it.

Things we can do for a cleaner water cycle:

- **Dispose of used motor oil properly:** Take used oil to a proper disposal location or to a chemical collections event.
- **Don't flush medications:** Take unused, unneeded, or expired medications to a local Drug Takeback event.
- **Don't flush wipes:** Even if they claim to be "flushable".
- **Avoid F.O.G. down the drain:** F.O.G. isn't a dreary weather event when we're talking water... **Fats, Oils, and Grease** build up in sanitary sewer drains contribute to half of the blockages seen in systems around Hampton Roads.

In addition to cooking oil and cooking grease, **F.O.G.** includes:

- Meat fats and food scraps
- Lard/shortening, butter, margarine
- Dairy products
- Batters, icing, dressings and sauces

Dispose of **F.O.G.** properly by canning the grease in an empty, heat safe container (this can be frozen, then thrown in the garbage), scraping plates into the trash before rinsing, and catching grease or food residue in sink strainers or baskets.

For more information on our **F.O.G.** program, please contact Public Works at (757) 890-3750 or visit www.yorkcounty.gov/pw.

Leaf Collection Program

Leaves typically are collected during the months of November through January. During this time, York County residents who reside on publicly maintained streets or roads can place an unlimited number of clear bags of leaves at the front roadside for collection every other week.

Residents who live in private communities or on privately maintained streets or roads may bring leaves to the closest public roadway for collection. In addition, ALL RESIDENTS may bring leaves year-round to the VPPSA Compost Facility located at 145 Goodwin Neck Road, Monday through Saturday, 8am—4pm.

For leaf collection purposes, the County is divided into two zones:

The *Northern Zone* includes all homes on and north of Dare Road, including neighborhoods along Wolf Trap Road, Goodwin Neck Road, and homes in and near Marlbank, Edgehill, Queens Lake, Hubbard's Lane, Skimino, and Lightfoot. The *Southern Zone* includes all homes south of Dare Road, including neighborhoods in Grafton, Tabb, Brandywine, Coventry, Kiln Creek, Calthrop Neck, Running Man, and Cary's Chapel Road area.

Leaves must be in **clear bags (no drawstrings, please!)** and bags must be easy to handle by one person (max. weight limit = 40 pounds). Clear bags can be purchased at local hardware, grocery, and department stores.

Bags must be at the front roadside by 7am on the Monday of your collection week. Pick up will be completed by the end of the week. For additional information or to see the leaf collection schedule for 2019, please click on "Leaf Collection" at www.yorkcounty.gov/wastemanagement.

November Meetings

- November 5 — Beautification Committee, WM @ 10am
- November 13 — Planning Commission, YH @ 7pm

Go Green for the Holidays!

Did you know that the average household waste increases 25 percent between Thanksgiving and New Year's Eve? Here are some fun and easy ways that you can Reduce, Reuse, and Recycle to make your holidays more sustainable, saving energy and resources!

Buy local: Look for a Christmas tree and holidays foods that were grown locally; less distance means less fuel was used to transport them.

Decorate with LED lights: This energy-efficient option will make your holidays brighter!

Give back to your local community: Give the gift of local attractions or events in the form of gift cards or certificates. Support your own community while saving fuel, packaging, and the expense of travel.

Use the nice dishes: Use washable dishes and utensils instead of disposable plates, utensils, and cups. Remember to scrape those plates to avoid F.O.G. buildup!

Don't forget your bags: Always remember to take your reusable bags when you go shopping to avoid using plastic bags (keep them in the car so they're always handy!)

Remember, the YCBC collects plastic bags and one-time use plastic wraps to participate in the Trex Recycling Challenge. Participants collect plastic bags and film with the goal of collecting or exceeding 500 pounds of plastic in a six month period. If the goal is met, the group is awarded an earth-friendly Trex bench, created from recycled plastic bags and film.

Remember to recycle your live Christmas tree. **York County provides Christmas tree recycling generally during the first full calendar week of January.** Watch for notices or sign up for e-mail notifications (visit www.yorkcounty.gov for details).

December Meetings

- December 3 — Beautification Committee, PW @ 6pm
- December 3 — Board of Supervisors, YH @ 6pm
- December 4 — Chesapeake Bay Board, PW @ 6pm (Resch.)

How Did They Do That?

January—*Keep Earth Green* by Noah Stoumbaugh
 Materials Used: Newspaper, used cotton, plastic grocery bag, cereal box, extra construction paper.
Shows the importance of recycling to preserve the environment; and to prevent harm to animals. York County has many enjoyable areas of nature people can use. Much nicer to be in nature when it's free of litter.

February—*Keep our County Clean* by Lauren Vaillancourt
 Materials Used: Newspaper, tissues, paper towels, trash bag, straw, bottle cap, popsicle sticks, ribbon, toothpick, glad wrap, twist tie
If we not only pick up our trash, but recycle what we can as well, our County will be much cleaner and friendlier toward the environment. Let's keep York County Clean in 2019!

March—*Nothing But Net* by Jacob Macedo
 Materials Used: Magazine, book
Recycling can be fun and it keeps the County clean

April—*Clean Up Your Yard* by Molly Macedo
 Materials Used: Old Magazines
We have to clean up our trash.

May—*Beautiful Clean Beach* by Samuel Graham
 Materials Used: Parts of a sea star, yogurt lid, yogurt container, recycled construction paper
When we keep cans out of the water, then the wildlife and people can enjoy the beach better

June—*Keep Our Fish Safe* by Kyra L. Webb
 Materials Used: Bottle cap, netting
The ocean is the fish's home. Trash needs to be picked up and put in trash cans or recycling cans. Litter in the ocean will harm the fish. Without the fish, it messes up the food chain.

July—*Keep the Beaches Clean* by Hafsa Mohammed
 Materials Used: Paper, bottle cap, yarn, sequins
Keep York River clean by recycling the waste found on the beach.

August—*Turn Plastic Bags Into Benches* by Cora Wilkins
 Materials Used: Scraps from family art room and kitchen, ribbons, foam, feathers, plastic bags, pipe cleaners, shells, string, paper sticks, bottle cap
The first scene shows a girl and a boy picking up plastic bags and putting them in a recycling bin. The plastic bags are then processed into benches. The other scene has ribbons hanging from the tree to celebrate the new benches.

September—*Marsh and Wetlands in Beautiful Clean York County* by Isaiah Graham
 Materials Used: Chocolate coin wrapper, belvita wrapper, butter wrapper, bottle cap, recycled paper, Hershey kiss wrappers, yogurt lids, yogurt tube, manila envelope, tissue box
Everything is clean in the marsh and wetlands of York County because of litter control.

October—*Keep the Parks Clean* by Nabeeha Mohammed
 Materials Used: Paper, bottle cap, straw, sticky notes, sponge
Parks can be enjoyable, only when they are kept clean. We all need to do our part in keeping them clean. Benches in the park should be made of recycled material. Only biodegradable food containers should be allowed in the park.

November—*Oysters* by Paige Macedo
 Materials Used: Paper Bag
My art depicts the oyster beds in the York River, which are planted to filter the river. The oysters take harmful sediment and either eat or packet them into little pellets, which are harmless.

December—*Keep the Landscapes Clean* by Safiyya Mohammed
 Materials Used: Paper, straw, Styrofoam, sticky notes, sponge, ribbon, and aluminum foil
We should keep the York County landscapes clean. We should not litter our parks. Littering causes environmental damage and also harms the wildlife.

2019 Beautiful York County

The **Beautiful York County Calendar and Art Contest** is coordinated by the York County Beautification Committee and funded through support from the York County Board of Supervisors, the York County Department of Public Works, Waste Management and Stormwater Divisions, and the York County Beautification Committee. Artwork was solicited from York County students grades K-12 attending home, private or public school. This year's theme again required that artwork reflect the concept of recycling in York County and/or how recycling helps keep it beautiful. Submissions were required to utilize recycled materials. For more information on the Calendar Art Contest or the York County Beautification Committee, please call (757) 890-3780 or visit the website:

www.yorkcounty.gov/ycbc

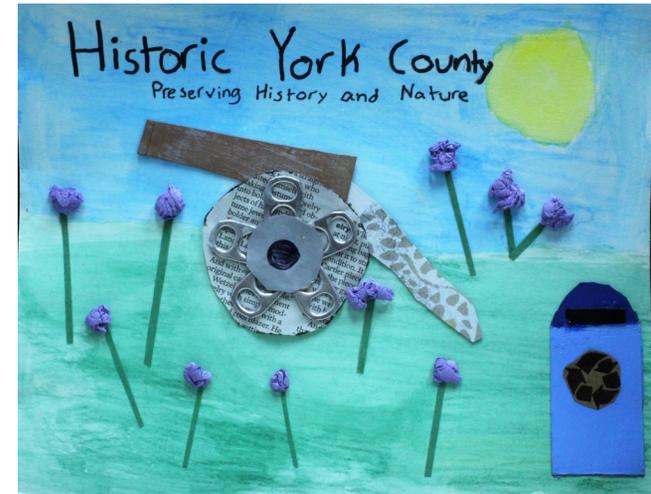

The **Department of Public Works** includes the divisions of Construction Inspection, Engineering, Facility Maintenance, Fleet Services, Infrastructure Management, Stormwater & Grounds Maintenance, Utilities Operations, and Waste Management. Administrative Offices are located at 105 Service Drive, Yorktown. For more information about the department or any of its divisions, please call (757) 890-3750 or visit the website:

www.yorkcounty.gov/pw

Cover Art

Congratulations to Maggie Annett, whose artwork, *Historic York County—Preserving History and Nature*, was chosen to grace the cover of the 2019 calendar.

Recycled materials used: Construction paper and tissue paper scraps, newspaper, soda can tabs, cardboard from soda can packaging, cardboard from tissue box, recycling label from a grocery bag.

Dates, times and events contained herein are subject to change without notice.
