**EXECUTIVE INSIGHT BRIEF | JANUARY 4, 2019**  
**TOP STORIES**

**New Acting Secretary of Defense**

On his first full day on the job, acting Secretary of Defense [Patrick Shanahan](#) told senior leaders at the Pentagon on Wednesday to "remember China, China, China."

His decision to urge the Pentagon's leadership to focus on the threat posed by China came just hours before he attended a Cabinet meeting at the White House, where he sat next to President Donald Trump as Trump slammed Shanahan's predecessor James Mattis and the ongoing U.S. military missions

in Syria and Afghanistan.

China, in particular, has repeatedly been labeled the greatest long-term security challenge facing the United States. [Read more here.](#)

### **Staying on the Topic of China...**

*Moon Landing:* China's space program achieved a first on Thursday: a [landing on the so-called dark side of the moon](#). The United States, the then-Soviet Union and more recently China have all sent spacecraft to the near side of the moon, which faces Earth, but this is the first-ever landing on the other side.

The China National Space Administration said the 10:26 a.m. landing of the Chang'e-4 lunar explorer has "opened up a new chapter in human lunar exploration." [Read more.](#)

*Apple:* It's the latest evidence of how tensions between the world's two biggest economies are affecting the U.S., undercutting President Trump's assurances that America could continue to grow quickly despite the conflict. At the same time, Chinese growth is [decelerating more rapidly](#) than many observers expected, leaving few winners on either side.

On Wednesday, Apple CEO Tim Cook wrote a [letter](#) to investors revising downward the company's revenue guidance for its first fiscal quarter from an [expected range](#) of \$89 billion to \$93 billion to \$84 billion now. [More here.](#)

*Military Updates:* A naval vessel called the Haiyangshan, carrying what appears to be a [railgun](#) on the bow, allegedly left the confines of the Yangtze River and is [being tested](#) in the Pacific Ocean. First spotted in January of 2018, the

railgun appears to be the first put on a warship by any country. Whether or not China is actually ahead of the U.S. in the area of railgun tech is an open question. [Click here for full story.](#)

The Chinese military has recently unveiled its new light tank, the [Type 15](#). This tank is smaller and lighter than the existing main battle tanks of the People's Liberation Army (PLA), meaning it can traverse terrain heavier tanks can't cross. The Type 15 has a 1,000 horsepower engine, about twice that of the Type 62 tank it is replacing. It boasts a 105 mm gun capable of firing armor-piercing shells and guided missiles, as opposed to the 85 mm gun of its Type 62 predecessor. [Full story.](#)

### **American Detained by Russia**

The Russian authorities have brought espionage charges against an American citizen, Paul N. Whelan, who faces up to 20 years in prison if convicted, the news agency Interfax reported on Thursday.

Whelan's case has so far remained [wrapped in mystery](#), with no official information about what precisely he is accused of doing. His lawyer, Zherebenkov, said that he had been briefed on the charges against Whelan as well as the details of the case, but that he cannot comment on them due to a confidentiality agreement. He said that Whelan does not accept the charges and intends to plead not guilty in court.

U.S. Ambassador to Russia, [Jon Huntsman](#), has met with the Michigan man accused of spying.

According to the Rosbalt news outlet, which is thought to have exclusive

sources via indirect links with the Kremlin, Whelan is [accused](#) of trying to recruit a long-time Russian acquaintance to gain a list of names of employees of a Russian security agency. Paul has been to Russia many times for work and personal business, and he flew to Moscow on December 22 to attend a wedding ceremony for a fellow [former Marine](#) and a Russian woman, David Whelan said.

The timing of the arrest - coming just 15 days after Russian Maria Butina pleaded guilty in Federal Court to charges of attempting to influence Republican political circles and U.S.-Russian relations - has many skeptical of the legitimacy of the charges imposed on Mr. Whelan.

### **Illegal Immigrant and Murderer of Police Officer Charged**

The man accused of shooting and killing a Northern California police officer the day after Christmas has been charged with [murder](#), according to court documents.

The criminal complaint filed in Stanislaus County for suspect [Gustavo Perez Arriaga](#), 32, a Mexican national, alleges that Arriaga "should have known" that Police Cpl. Ronil Singh was a "sworn police officer acting in the performance of his duties" and therefore "acted intentionally, deliberately and with premeditation."

Singh, 33, was killed on Dec. 26 just before 1 a.m. after he pulled [Ariaga](#) over in his gray Dodge Ram pickup truck because he believed he was under the influence of alcohol, authorities said.

Arriaga, an undocumented immigrant, was arrested Friday and placed

in handcuffs after law enforcement officers surrounded a home in Bakersfield, California, about 200 miles south of Stanislaus County. He had tried to flee to Mexico after the shooting, Stanislaus County Sheriff Adam Christianson said after his arrest. Arriaga had known gang affiliations and two prior DUI arrests.

Seven of those who allegedly helped aid and abet the suspect have been arrested as well. They face criminal charges and deportation, as all are present in the United States illegally. [Read more.](#)

### Quick Hits

As expected, [Nancy Pelosi](#) re-captured her position as Speaker of the House yesterday. She previously made history by becoming the first woman to hold the position back in 2007, then lost her seat to John Boehner as Republicans took 63 House seats from Democrats in 2010. [Read more.](#)

A Marine who was fatally shot Tuesday at the Marine Barracks in Washington has been identified as [Lance Cpl. Riley S. Kuznia](#), 20, of Karlstad, Minnesota, according to a press release from the Marine Corps on Wednesday. A local Fox News affiliate reported that the shooting appeared to be an accident and may have occurred during a guard shift change—but is currently under investigation. [Click here for more information.](#)

Richard Arvin Overton, America's oldest World War II veteran and the third-oldest man in the world, died Thursday afternoon from pneumonia. He was [112 years old](#). In recent years, you'd probably find Richard sitting on the front porch of his Texas home, greeting people passing by, smoking a few of his 12 daily cigars and knocking back cups of whiskey-spiked coffee.

During the course of his three years of active duty - which lasted from

September 1942 to October 1945 - Overton served in the all-black 1887th Engineer Aviation Battalion. [Read more here.](#)

### **This Day in History**

1847: [Samuel Colt](#) sells his first revolver pistol to the U.S. government. His U.S. revolver patent will give him a monopoly on the manufacturing of revolvers until 1857, and during the Civil War his factory in Hartford, Connecticut, will supply firearms to both the North and the South.

1896: Utah becomes the [45th state](#) of the Union.

1974: President Richard Nixon refuses to hand over tape recordings and documents that had been subpoenaed by the Senate [Watergate](#) Committee.

1999: The euro, the new currency of 11 nations, goes into effect on the continent of Europe.

2004: NASA's Mars rover [Spirit](#) successfully lands on Mars.

2007: Rep. Nancy Pelosi (D-California) becomes the first female speaker of the U.S. House of Representatives.

2010: [Burj Khalifa](#) (Khalifa Tower) officially opens in Dubai, UAE. At 2,722 ft. it is the world's tallest man-made structure.
