

# FY 2018 ANNUAL REPORT

## YORK COUNTY PLANNING COMMISSION

### MESSAGE FROM THE CHAIR

As York County Planning Commission Chair for 2017-18, I am pleased to provide the Commission's FY 2018 Annual Report. It was a busy year as our caseload increased to its third highest level of the past ten years. A review of our applications reveals two noteworthy trends. First, developer interest in age-restricted housing to address the ever-growing senior population has not abated; in FY18 we reviewed and recommended approval of two senior housing projects with a combined total of almost 400 units, both of which were approved by the Board. Second, there has been a relative surge in applications for short-term vacation rentals. The advent of internet sites such as Airbnb and VRBO have made it easy for homeowners to rent out their homes (or rooms within their homes) on a short-term basis to travelers looking for a place to stay other than a motel or timeshare. In York County, this activity constitutes either a tourist home or a bed-and-breakfast inn, both of which require a Special Use Permit in residential zoning districts.

In FY 2019 the County will embark on the review and update of its Comprehensive Plan, which was adopted in September 2013. The state code requires localities to review and, if necessary, update their comprehensive plans at least once every five years. As the long-range plan for the physical development of the County, the comprehensive plan lays the policy groundwork for decisions related to zoning, development, land use, transportation, capital improvement projects, and a host of other issues.

Lastly, I would be remiss if I did not note the retirement of Mark Carter in FY18 after a forty-year career that began as a temporary project employee and ended as Deputy County Administrator. Mark played a key role in the planning and development decisions that have shaped York County. As was stated at his final Commission meeting in April 2018, there are not enough accolades to adequately describe Mark and his contributions to the County. I believe I speak for the entire Commission – and all who served on the Commission during Mark's tenure – when I say we are going to miss him, and we wish him all the best.

<sup>2</sup>Planning Commission recommended approval.

<sup>3</sup>The Planning Commission did not make a recommendation on this application; a motion to recommend approval failed on a tie vote.

## [Application Highlights](#)

In November 2017, the Planning Commission considered an application for a two-bedroom tourist home in an existing building on Ballard Street in historic Yorktown. This was one of four tourist home applications to come before the Commission in FY 2018. The application, which generated no citizen opposition, was supported by both the Commission and the Board of Supervisors based on its location on a road that carries a considerable amount of non-local traffic, the absence of residential neighbors, and most importantly, its location in Yorktown, where lodging spaces for tourists are common and, in fact, encouraged by the adopted Yorktown Master Plan.

## Application Highlights (continued)

Signs of an improving economy were evident in FY 2018 as Tractor Supply Company and other national retailers came to the County seeking approval of new developments through either the Special Use Permit or rezoning process. Approved by the Board of Supervisors in May 2018 with a recommendation of approval from the Planning Commission, Tractor Supply Company plans to build a new 19,097-square foot store with 18,000 square feet of outdoor display area on the west side of Route 17 just south of the CSX railroad tracks. Tractor Supply Company operates “rural lifestyle stores” across the U.S. that offer a wide range of merchandise, including not just farming equipment and tractor parts but also home goods, furniture, pet supplies, sporting goods, tools, lawn and garden supplies, clothing, and toys. Other new businesses approved in the past fiscal year with the Commission’s support include an Autobell car wash on Route 17 in Tabb and a Caliber Collision auto repair garage on Bypass Road in the upper County.

## Planning Commission Highlights

- In FY2018 the Planning Commission held ten regular meetings and one work session and considered fifteen Special Use Permit applications, four Planned Development applications, three rezoning applications, two YVA (Yorktown Village Activity) applications, and three sets of Zoning and Subdivision Ordinance text amendments.
- Chairman Jons represented the Planning Commission on an ad hoc committee of community stakeholders that was formed by County Administrator Neil Morgan to review and make recommendations on a series of draft amendments to the Zoning Ordinance requirements related to signs. This effort was triggered by the U.S. Supreme Court’s 2015 ruling in *Reed v. Town of Gilbert*, which set a new, stricter standard for local regulation of signs.
- Commissioner Rich Myer completed his tenure on the Commission on June 30, 2018, having served the eight-year/two-term maximum allowed for Planning Commission members. A Certified Planning Commissioner since 2011, Mr. Myer served as vice chair in 2011-12 and then as chair in 2012-13, steering the Commission through the Comprehensive Plan review process that culminated in the adoption of the current Plan in September 2013. Mr. Myers’ service was characterized by his keen engineer’s eye for detail, his penetrating questions and insightful observations, his basic sense of fairness, his independent mind, and his dedication to serving the citizens and protecting their quality of life.
