Drainage/Sidewalk Project to Temporarily Close Road in Historic Yorktown

Comte de Grasse Street closed for two months beginning 1/5/2020

December 30, 2019

Historic Yorktown's Comte de Grasse Street will be closed to traffic beginning January 5, 2020, for approximately two months. The 60 day road closure enables a contractor to improve a drainage issue along the roadside and also to install a sidewalk, making the trip to and from the Victory Monument and Water Street more safe and pleasant for pedestrians. The new sidewalk will be five-feet wide and made of brick with a concrete base for stability.

The road closure means that there is no vehicle access to the Beach Picnic Area located at the end of Water Street. Typically, drivers access the Beach Picnic Area by traveling down Comte de Grasse (a one-way street) and turning right into the parking lot. The Beach Picnic Area is not accessible from Water Street because a portion of that road also is one-way. The Beach Picnic Area remains open to pedestrians throughout the Comte de Grasse Street road closure.

El-X Enterprises has been contracted to perform the work.
