

Williamsburg Area Transit Authority

[addressee]

Proposed Northern
Transfer Center

WATA is proposing to construct a new bus transfer station at 6166 Old Mooretown Road located in York County, north of the City of Williamsburg. The site is currently vacant and is adjacent to the rear of the YMCA.

The facility will include a building with restrooms and a passenger waiting area. The site will be utilized by routes that serve portions of the Lightfoot and Bruton areas, currently Routes 2, 4, 7, and 9. Vehicle access is planned via Hornor Lane.

WATA is in need of a facility as the current transfer location is on private property and has no amenities for passengers or staff. A facility at this location will allow access to surrounding businesses by multiple modes.
