**Subject:** GO Virginia Board Meeting

Tom,

**The following summarizes actions taken on the applications submitted by Region 5:**

1. 757 Seed Fund – Additional information is needed before this request can be approved. The intent to reapply in February.
2. Unmanned Systems Development Facility –The expectation is that feasibility work done at the state and federal level must be completed before the project is funded.
3. Regional Broadband Infrastructure – General Assembly guidance is needed, therefore a decision on this project is deferred until policy questions are answered.
4. Virginia Digital Shipbuilding Workforce Program – Approved funding in the amount of \$ 647,540 for Year 1

5. HR Cyber Collaboration Laboratory (HRCyber Co-Lab) – Approved funding in the amount of \$ 642,713 for Year 1

Attached is a copy of the board packet for today's GO Virginia Meeting. The Per Capita Project Summaries included will provide information that might be useful to know prior to your meeting tomorrow. It includes points from the state workgroup discussion as well as their recommendations. Jim is on his way back from Richmond and will take the road time to process what was discussed. Although you may be reading about the actions taken at this meeting in newspaper tomorrow morning our intent is to get a message out to members of the Regional Council the actions as well as any feedback regarding questions/issues that need to be addressed.

More to come!

Donna
